

# Christmas Gifts by Little Fingers

By PEGGY POWERS

1-Doll's Cord Hammock.  
2-Thermometer.  
3-Doll's Raffia Hammock.  
4-Card Board Work Basket.

5-Raffia Collar Button Box.  
6-Neck Tie Rack.  
7-A Pretty Bag.

8-Match Strike.  
9-Croquet Bag.  
10-Thread and Needle.  
11-Ring Toss.

Christmas draws near, the little folks are wondering what they shall make this year. They should know that something made by themselves is appreciated a hundred times more than anything money could buy.

Christmas draws near, the little folks are wondering what they shall make this year. They should know that something made by themselves is appreciated a hundred times more than anything money could buy.

the glue is hardened. With your carving punch and hammer strike light, careful blows over the board to decorate it.

Thread and Needle. How glad mother will be to receive this useful gift! It is made of bass-wood 1/4 inch thick, 3 1/2 inches wide and 14 1/2 inches long. (See picture.) This must be given a coat of shellac. Bore a hole in the middle of the board one inch from the top by which to hang it. Two, four and six inches from that bore holes and place in each of them a peg 1/2 inch thick and 1 inch long, which holds the spool of thread. Two inches from the lowest one glue a velvet pin cushion. This cushion is 2 1/2 inches square. It is stuffed with cotton batting. One inch below the cushion screw a brass hook to hold the scissors.

Thermometer. Any one is glad to have a pretty thermometer for his or her room. Look at the picture and cut a design like it out of basswood. Bore a hole near the top for hanging. Sand paper the board the same as you did the match strike. Shellac both sides. If you put a coat on only one side, the board will warp. Stamp the back-ground to make it look pretty with a carving punch and hammer stamp. Cut out a background like picture for the thermometer. Glue it in place. Tack on a thermometer with the brass case which is used for that purpose.

Cardboard Work Basket. And here is a dainty basket that does not require the tool chest, and "big sister" will be glad to have it. It is useful as well as pretty. Cut out of heavy white cardboard four pieces shaped like the picture. They should be 2 inches across the bottom and 4 inches across the top. On each one embroider several spider webs with mercerized silk. Cut out one of cardboard a square, a little less than 2 inches, for the bottom of the basket. Fit and sew the sides to the bottom and then sew the sides together to form a basket. Run a ribbon, about an inch wide, along the edges of the basket. Sew it firmly at the corners. At each top corner place a pretty bow.

A Pretty Bag. This is a crash bag 14 inches long and 7 inches wide when finished. At the top a piece 4 inches long is turned over and 1 1/2 inches of it at the bottom is ravelled for a fringe. An inch from the top of the bag eight small embroidery rings are sewed, each 1/2 inches apart. Through this a silk cord is drawn. You can make up your own embroidery design. The one in the picture is worked with a simple chain stitch.

Croquet Bag. This bag was crocheted with a very simple stitch and was made by a little girl only nine years old. Get out your crocheting needles and see what you can do. This bag may be used for many different things and it will make a fine gift for years. For the bottom of it, cut a piece of cardboard 4 inches by 5 inches. Cover it with any place

she seen became very anxious, when her uneasiness suddenly gave place to rage on receipt of an anonymous communication, telling her of her faithless lover's flight and informing her of his address. Next day, accompanied by her brother, she left for Berlin only to find on her arrival that Dreher, no doubt scenting danger, had fled southward.

Through Austria she traced him to Italy, where he was found in Rome, employed as waiter at a cafe. Overawed by the brother's threats, he con-

sented to accompany the couple to England, but contrived, on landing at Dover, to give them the slip. Once again was the hue and cry raised, but Dreher managed to reach New York with his pursuers on his track. For a second time did he avoid capture, and succeeded in reaching San Francisco, where he had the misfortune to break his leg. Crippled by the accident, his means almost exhausted, and broken in spirit, he no longer attempted evasion, but allowed himself to be taken possession of by the widow.

How the children love raffia work! And it is wonderful what beautiful things even very little children can make. The raffia box in this picture was made by a six-year-old youngster. It is for father's collar buttons. In the middle of it cut a tiny hole. Wind raffia evenly around this circle from the center to the edge. Cut a piece of cardboard 2 inches wide and long enough to fit the base. Wind the raffia around this piece and with a piece of raffia saw it to the bottom of the box. Braid three pieces of raffia for a handle. Punch one hole on each side of the basket near the top and run the ends of the handle through them. You can sew smaller bows where the handles join the basket if you wish.

Any one who has ever made a raffia basket knows how much pleasure it is and how glad one is to receive it for a gift. Soak a reed in hot water. Thread a needle with raffia. Make a point at one end of the reed with a knife. Wind the piece of raffia around the reed. Form this end into a coil and sew tightly. Wind the thread over the reed and place the needle through the coil of reed and raffia. In starting a new thread, hold it along the reed and work over it until the end is fastened. The designs are worked in colored raffia. When the bottom of the basket is finished begin the sides by placing the reed right on top of the last coil. When the basket is finished sharpen the end of the reed to a point, finishing the coil gradually.

Doll's Raffia Hammock. Take a piece of strawboard 10 inches long and 7 inches wide. Along the longest edge make notches 1/2 inch apart. Fasten two brass rings in the middle of back of strawboard. Carry a cord from one ring on the back through the corner notch in front across the length of the board, through over the back, and loop it through the other ring. Do this until the thread passes over each notch. Then weave across. Weave once across the back close to the edge. Work over this last row and sew between the strand so that when you place your dolls in the hammock it won't ravel. Unfasten the rings and break away the cardboard.

Doll's Cord Hammock. Here is a picture of a hammock for dolls, made of macrame cord. A ten-year-old child made this hammock for her little sister. It is about one yard long and made of the Solomon's knots. You can also have mamma show you how to crochet one, too.

## TUNNY IN BRITISH WATERS

Large Specimen of the Fish Weighing 715 Pounds Is Caught and Put on Exhibition.

London.—A large specimen of the short-finned tunny (ereynus thynnus) was recently captured off the south-west coast of Ireland by one of the Fleetwood trawlers when trawling for hake, who brought it to their home port, and it was afterwards sent, as a writer had the opportunity of examining it. The fish in question weighed 715 pounds and measured six feet six inches in length, and is the largest of

The Tunny Fish.

species ever brought to Fleetwood. Tunny belongs to the mackerel family, having somewhat the appearance of a gigantic mackerel, and is a visitor to British waters. It is a large fish, particularly abundant in the Mediterranean, where the fisheries are of great antiquity, and is today in demand for its edible qualities. Countries bordering on that sea, including the British Isles, have established extensive fisheries for tunny, and as an indication of their value the tunny appears on medals of Cadiz and Carlsbad. Unfortunately, the specimen here is wrinkled in the lower portion of the body, owing to its not being cleared of the ground when being shipped, and the fish is leaning off, consequently wrinkling it. A weighing three and a half hundred and about eight feet long. The specimen of the same size, said to be "just under 12 feet in height, and weighing six and a half hundred, were caught in the Net, and landed at East Coast, during the month of September last year. The Mediterranean is supposed to be the home of the Callosa, and both these fish may be found in this country preserved in

## RA OBJECTED TO PLAN

Refurnish Colorado Girl With New Belt and a Tragedy Nearly Results.

Dole.—Her anxiety to have a new skin belt almost cost the life of Grace Glasspool when a snake appeared and she was suddenly seized very much alive and

struck. The girl was out riding when she was the rattling sunning itself. The girl alighted from her horse and attacked the snake with a stick, apparently killing it. She then in the vehicle and drove to the place of the ground, calling and striking. Her heavy riding skirt caught, she killed the snake with a bat. Miss Glasspool still has hopes of finally owning a snake belt.

## ENGLIKE UP DOMINOES

Old Games Stop-Gap Between Tea and Dinner.

London.—Society hostesses are lately in providing for entertainment, especially in tea and dinner, revival of some of the old games. Some of the most popular are dominoes, which are extremely elegant and of most of the quality of the game. How they had died out is that some hostesses could not find among their party the game.

## LEFT THE COLONEL THINKING

Probably After This He Made Some Inquiry Before He Gave Up His Money.

A certain old colonel was noted for his great generosity. He had lost an arm during one of the engagements in which he had seen service, and this made him very sympathetic toward all who had experienced similar losses.

While walking on his estate one day he met an old one-legged man, evidently in need of poverty.

"Ah, you have met with a great misfortune, like myself, I see," remarked the colonel.

"Ah," replied the old man, "and, like yourself, colonel, I have spent a great part of my life in government's service, and seen a lot of hard work."

"My poor man!" exclaimed the kind hearted colonel, as he pushed a half dollar into the old man's hand. "I fear you have received but a poor reward for your services."

"You may well say that, colonel," replied the veteran as he hobbled away.

"But," added the colonel, "you didn't tell me where you served."

"Well, if it comes to that," the old reprobate answered, "with a sly chuckle, 'I served my time in jail, where they give me 15 years for stealing jewelry!'"

## SCALY PSORIASIS ON LIMBS

Troop H, 6th U. S. Cavalry, Camp McCoy, Sparta, Wis.—"I was troubled with psoriasis for nearly two years. Portions of my arms and limbs were affected mostly with it. It appeared in scaly form, breaking out in very small dots and gradually grew larger and white scales formed when about the size of an ordinary match-head. The looks of it was horrible, which made it very unpleasant for me. It

itched a little at times.

"I tried several treatments which cured me for a month, but it always broke out again. One day a friend saw the advertisement of Cuticura Soap and Ointment in the paper and I sent for a sample. They helped me, so I purchased two more boxes of Cuticura Ointment and some Cuticura Soap and they completely cured me. It took three months for Cuticura Soap and Ointment to complete my cure." (Signed) Walter Mahony, Oct. 22, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."

## The Limit.

After standing by for 15 minutes listening to the stream of questions put to a policeman at a busy corner, the woman said:

"Don't you get awfully tired of answering all these fool questions that are put to you hour after hour?"

"Well, rather," said he. "Still, I've got so used to it that there is only one of the lot that makes me actually

hail."

"Which one is that?" she inquired.

"Don't I get awfully tired of answering all the fool questions that other folks ask?"

"Oh!" said the woman, and hurried on.

## Will Grow Up to Be a Lawyer.

Little Charles is trying to learn to control his naturally violent temper, and every adult member of the family is eager to help him. The other children, too, have been urged not to do anything to render a fall easy. Charles is an observant and quick-witted youngster, and the other day, when his mother proposed condign punishment for some act of serious disobedience, he advanced a novel plea for mercy.

"Please don't punish me, mamma," he pleaded. "It makes me so angry to be punished, and I'm trying so hard to keep my temper today."

## Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fitch*.

In Use For Over 30 Years. Children Cry for Fletcher's Castoria.

## As Far as He Got.

"Did your barber do anything on your head with that hair restorer?"

"Well, he made a bald pretense."

## The Typewriter for the Business Man

Whether you are a small town merchant or a farmer, you need a typewriter. If you are writing by hand, you are not getting full efficiency.

It doesn't require an expert operator to run the L. C. Smith & Bros. typewriter. It is simple, compact, complete, durable.

Send in the attached coupon and we will give special attention to your typewriter needs.

## THE REBEL TO BOMB

MEXICAN FEDERALISTS EXECUTE  
MAN WHO DYNAMITED  
TROOP TRAIN.

## SEQUEL TO KILLING 123

Huerta Officer Tortured and Slain Be-  
fore His Aids Take Revenge—Fleeing  
General Arrives at El Paso,  
Tex.

Progreso, Tex., Dec. 9.—The big bul-  
lion train which has been on the way  
from Parral, Mexico, for the past two  
weeks reached Ojinaga Sunday morn-  
ing and later reached the border in  
safety with 2,000,000 ounces of silver.  
Mexico City, Dec. 8.—A modifica-  
tion of the old method of tying men to  
the muzzles of cannon and blowing  
them to pieces was employed on Fri-  
day by the federalists north of San Luis  
Potosi.

A captured rebel, supposed to have  
been one of the band which recently  
dynamited a troop train at Cameros,  
was given a summary trial by court-  
martial and sentenced to death. The  
condemned man was tied to the ground  
and a dynamite bomb was placed be-  
neath him and exploded.

Maj. Ricardo Cordero arrived in the  
capital and described the dynamiting  
of the troop train, resulting in the  
death of 103 soldiers and 20 women  
camp followers. He said Colonel de la  
Pena was captured by the rebels, who  
cut out his ears, tore out his tongue  
and gouged out his eyes. Then they  
killed the women camp followers.  
Major Cordero succeeded in driving  
away the attacking band and in captur-  
ing the man believed to have set off  
the dynamite mines. It was this pris-  
oner who was put to death with dynamite  
after a court-martial.

Reports that Collina had been cap-  
tured by rebels, that Monterey had  
been evacuated by federalists while fac-  
ing attack and that an anti-government  
uprising had occurred in Guadalajara  
were current here, but were denied by  
officials.

Word arrived also that the French  
consular representative in Monterey  
had been killed in a rebel attack on  
the town. The foreign colony vainly  
tried to get confirmation or denial of  
this. At the same time it was said an  
American corporation had arranged  
with President Huerta to lend him  
750,000 pesos on promises of conces-  
sions.

It was learned from a reliable source  
that General Huerta had instructed di-  
vision commanders of the army that  
they need not expect the army pay  
rolls of the federal treasury, but to  
obtain funds wherever they could find  
them. Huerta's family has fled secretly  
to Vera Cruz.

Januz, Dec. 8.—Instead of occupying  
Chihuahua, Gen. Francisco Villa, with  
his 7,000 rebels encamped along the  
railroad north of that city, returned  
hurriedly to Villa Ahumada to dis-  
patch more men in pursuit of the  
federalists retreating toward Ojinaga,  
on the American border. Altogether 500  
rebels occupy the fort at Ojinaga. Villa  
said his soldiers would not let the fed-  
eralists reach the border or cross into  
the United States without a fight. His  
purpose is to capture the federal troops  
and seize their arms and equipment.

El Paso, Tex., Dec. 8.—Gen. Roque  
Gomez, one of the Huerta command-  
ers who ran away from Chihuahua, en-  
tered the United States at Columbus,  
N. M., and arrived in El Paso on Fri-  
day night. Several other generals  
their commands, and many wealthy  
Mexicans are expected to arrive here  
this week.

## DENVER IS SNOW-BOUND

School Children Unable to Get Home  
and Department Stores' Clerks  
Sleep in Shops.

Denver, Colo., Dec. 6.—Denver is  
snow-bound. At seven o'clock on  
Thursday from twenty to twenty-four  
inches of snow had fallen in the city  
and suburbs, with no prospect of a  
cessation for at least ten hours. Since  
mid-afternoon street car traffic has  
been completely blocked and thou-  
sands are marooned in the downtown  
district.

Hundreds of children were cared  
for in houses adjoining the schools.  
Many department stores closed early  
that the women employees might reach  
their homes, but hundreds were  
housed in downtown hotels, while men  
clerks, unable to get accommodations,  
spent the night in the stores. Many  
telephone operators were unable to  
leave their homes and telephone com-  
munication is slow and uncertain.

President Wilson is ill.  
Washington, Dec. 5.—Owing to a  
slight cold in the head, President Wil-  
son remained in bed on Wednesday on  
the orders of his physician, Dr. Cary  
T. Grayson. The president was suffer-  
ing from the cold when he made the  
trip to the capitol to deliver his ad-  
dress, and his physician told him to  
take no chances of its making further  
progress.

Florida State Bank Suspends.  
Pensacola, Fla., Dec. 8.—After an  
all night conference the Pensacola  
State bank, capitalized at \$100,000,  
suspended business pending examina-  
tion by the state comptroller. The  
bank has about \$100,000 deposits.

Egg War Hits the Capital.  
Washington, Dec. 8.—Eggs are to  
be banished from the tables in the  
homes of nearly all the cabinet mem-  
bers, whose wives have pledged their  
support to the egg boycott campaign  
being waged to reduce the price.

## SHIP AFIRE; 197 SAVED

STEAMER GOES TO RESCUE OF  
RIO GRANDE.Discipline of Crews on Both Vessels  
Averts Serious Accident  
at Sea.

Norfolk, Va., Dec. 9.—One hundred  
and ninety-seven passengers were  
taken off the steamer Rio Grande at  
sea before daybreak Monday while the  
big ship was on fire and thought to  
be in danger. The rescue was made  
by the British steamship Swanmore,  
bound from Liverpool for Baltimore.

The rescue occurred 205 miles north-  
west of "Diamond Shoals." The Rio  
Grande, after its crew failed to sub-  
due the flames in one of its forward  
holds, sent out wireless calls for as-  
sistance.

The Swanmore, which was within a  
few miles of the burning ship, picked  
them up and hurried to the burning  
vessel. It reached the Rio Grande  
shortly after four o'clock and sent life-  
boats to take off the passengers.

A high southwest wind caused a choppy  
sea and there was danger of the life-  
boats being crushed against the sides  
of the two steamers.

The Rio Grande was ready to trans-  
fer the passengers when the Swan-  
more hove in sight and had its life-  
boats loaded with human freight  
while hanging in their davits.

The rescue, accomplished in dark-  
ness, is regarded here as the most  
thrilling recorded in some time. The  
excellent discipline of the crew of  
both vessels is believed to be respon-  
sible for the successful transfer of  
the passengers from the burning ves-  
sel to the Swanmore.

One report received here said that  
the Swanmore after taking off the Rio  
Grande's passengers stood by the ship  
and helped to fight the flames. When  
the fire was under control, one report  
says, the passengers were again trans-  
ferred to the Rio Grande and it con-  
tinued on its voyage.

NEWS FROM FAR  
AND NEAR

Brussels, Dec. 8.—A Catholic priest  
was shot and wounded here by a so-  
cialist because he refused to join a fu-  
neral procession in which the red flag  
of socialism was carried. One of the  
men in the funeral party shot him.

Los Angeles, Dec. 4.—After shoot-  
ing and killing the cashier of the Palo  
Verde Valley bank at Blythe, bandits  
robbed the vaults of the bank of \$5,  
000 and escaped. Detectives left hur-  
riedly for the scene of the robbery.

Bingham, Utah, Dec. 5.—That Frank  
Lopez, the Mexican outlaw whose  
dreadful deed has claimed six victims in  
the last few days, has escaped from the  
Apex mine, where he has been  
thought a prisoner by more than a  
score of sheriffs and deputies, is the  
fear of the men who are standing  
guard at the exits of the mine. This,  
however, is not in accordance with the  
belief of Sheriff Smith, who announced  
that he expected to find the body of  
Lopez.

## MISS PHOEBE COUZINS DIES

Woman Lawyer Dies in Poverty in St.  
Louis—Was Enemy of  
Suffrage.

St. Louis, Dec. 9.—Miss Phoebe  
Couzins, the first woman lawyer in  
the United States and the only woman  
who ever served as deputy United  
States marshal, died here on Saturday.  
Miss Couzins was seventy-three years  
old.

Death came as the culmination of  
a long illness, which she had suffered  
in poverty in a squalid room in a  
crowded section of St. Louis. Though  
she was an early advocate of woman's  
rights, she later became an anti-suf-  
fraget.

## HETCH HETCHY BILL WINS

Measure Passed by Senate Grants San  
Francisco Water Supply in Yo-  
semite National Park.

Washington, Dec. 9.—The Hetch bill,  
giving San Francisco water supply and  
power rights in the Hetch Hetchy  
valley of the Tuolumne river, Yosemite  
national park, passed the senate on  
Saturday by a vote of 43 to 25. The  
bill had previously passed the house  
in identically the same form and goes  
to the president for signature.

## MRS. PANKKHURST RELEASED

Millant Taken to Hospital, After  
Three Days' Hunger Strike, Suf-  
fering With Pleurisy.

London, Dec. 9.—After three days  
of a hunger and thirst strike in the  
Exeter jails, Mrs. Pankhurst was re-  
leased and taken to a hospital Sunday.  
A medical certificate declares her to  
be suffering from pleurisy.

Industrial Workers in Riot.  
Kansas City, Mo., Dec. 9.—Sixteen  
Industrial Workers of the World were  
arrested near the city hall. They had  
denied the orders of the police in mak-  
ing speeches on the street. Two riot  
calls were sent to police headquarters.

100 Suffer in Rail Collision.  
Bucharest, Dec. 9.—News reached  
this city that 100 persons suffered,  
some killed and others injured, in a  
collision between passenger and  
freight trains near Costesti on Satur-  
day night.

## INTERIOR OF VERA CRUZ CUSTOM HOUSE

Should congress, at the commendation of President Wilson, raise the  
embargo against the purchase by the Mexican revolutionists, of arms, and  
munitions of war in the United States, the war material for the equipment of  
the Constitutionalists will be through the custom house at Vera Cruz, as  
interior view of which is shown here. This is the gateway of hope to the  
followers of Carranza.

## TELLS BOMB OTS

CONFESSION OF GEORGE DAVIS  
CAUSES STIR IN NEW  
LABOR RANK

## WAS M'NANGAL EAST

Member of Iron Workers' organiza-  
tion Gives Particulars of Out-  
rages Committed by Street  
of Union Officials, It Is Said.

New York, Dec. 9.—G. Davis,  
the dynamiter on whose life the  
federal grand jury at Philadelphia  
just found indictments, has  
just found indictments, has  
case in which officers of the  
International Brotherhood of  
Ironworkers' are de-  
fendants, made one of the most re-  
markable confessions.

Davis and Harry J. among  
the new men indicted in addi-  
tion to the many connected with  
ready convicted on charges.  
Davis gives dates and places of dy-  
namite outrages. He says he  
was hired to blow up, viaducts  
and other structures by non-  
union labor.

The confession is part of ex-  
traordinary interest, shows how  
small the reward was Davis re-  
ceived for the deaths caused.  
In one case he got a dynamite  
outrage, in another, 10.

The confession is a peril to  
which hundreds of were sub-  
jected by the dynamite. Davis  
carried the dynamite through  
cities, train railroad  
trains and steamships, over-  
night as if it were a harmless  
substance. In the yet he  
handled quantities to cause  
great loss of life and property  
if it were used as an ex-  
plosion.

The confession is Davis did  
his work and his with the  
officers of the Ironworkers' union.  
In brief, Davis, a east what  
Orlie McManis, the west. He  
was trailed by a Foster, a  
Louisville detective, to find  
the man who had the dynamite  
in the city was finally  
induced to talk. He thought he  
had been ill of the union,  
which threw him the arrest  
of Frank C. W. February, 1912.  
He made his in New  
York.

## TWO SLAIN STRIKE

Volley of Shots through Non-  
union Board at Palace.

Calumet, Ill., Dec. 9.—Serious  
trouble is the result of the  
murder at the two copper  
miners and founding of a  
third and of a girl, as they  
slept on Saturday night.  
The girl James, two-  
ty-one years old, Harry  
James, two years old, Toronto,  
Ont., both Friday, Thom-  
as Dalley, years old, and  
Mary Nicholson, are wound-  
ed. This act of a gun at-  
tack on a boarding house, a  
score of a being fired  
through the roof and two others.

Peve's Act.  
Denver, 9.—Roy Mont-  
gomery, 36, Wyo., was  
sentenced to court on Sat-  
urday to years and six  
months salary for viola-  
tion of the

Kat Banquet.  
Chicago, 9.—H. Kahn, head  
of the financial house of  
Kahn, L. chairman of the  
executive of a grand opera  
company, as he finished  
an add-

## BAR ARMS TO ULSTER

PROCLAMATION GIVEN AS AS-  
QUITH ACCEPTS PEACE PLANS.Principles for Basic Argument With  
Sir Edward Carson Are Sug-  
gested.

London, Dec. 8.—Home rule for Ire-  
land, with Ulster included and pact-  
ed, is visibly nearer realization as a  
result of two important announce-  
ments by the government Friday.

The British cabinet by a royal pro-  
clamation prohibited the importation of  
arms and ammunition into Ireland.  
Premier Asquith accepted the terms  
set forth by Sir Edward Carson in his  
Manchester address by which Ulster  
came to be pacified.

Promulgation of the ban upon the  
importation of arms into Ireland for  
the first time meets the revolutionary  
threats of the followers of Sir Edward  
Carson, who have for months paraded  
their military preparations and defied  
the government to interfere.

Almost at the time of publication of  
the king's proclamation Premier As-  
quith made a long stop toward con-  
ciliation of the Ulsterites, announcing  
his acceptance of the principles for a  
basic agreement which Sir Edward  
Carson had suggested. These princi-  
ples are:

1. That the settlement must not  
be humiliating or degrading to Ulster.  
2. Ulster's treatment must not be  
different or exceptional from that  
meted out to the other parts of the  
United Kingdom.

3. Ulster must retain full protection  
of the imperial parliament.

4. The home rule bill must not be  
such as to lead to ultimate separa-  
tion of Ulster from Great Britain.

Nottingham, Dec. 8.—Sir Edward  
Carson said in a speech that the Ul-  
ster volunteers aggregated 50,000. He  
added that they were determined and  
awaiting orders. After his speech Sir  
Edward said the king's proclamation  
came too late.

## BIG HOTEL FIRE KILLS 27

Many Others Are Missing in Boston  
Lodging House Tragedy—Men  
Are Trapped.

Doston, Dec. 5.—Fire which de-  
stroyed the Arcadia lodging house at  
1202 Washington street caused the  
death of 27 persons on Wednesday.  
This is the heaviest death toll ever re-  
corded in a fire in Boston.

Two persons were fatally injured  
while more than a score were slightly  
hurt or overcome by smoke. There  
were 175 men asleep in the lodging  
house when the fire broke out.

The flames spread swiftly through  
the flimsy building and a number of  
men, caught on the upper floors,  
leaped from windows.

## COLONEL GAILLARD IS DEAD

Member of Panama Canal Committee  
Dies of Paralysis After Two  
Months' Illness.

Baltimore, Md., Dec. 8.—Lieut. Col.  
Gaillard, member of the Panama canal  
committee, died on Friday at the  
Philipps clinic of the Johns Hopkins  
hospital. Colonel Gaillard, who was  
suffering from paralysis, has been a pa-  
tient at the hospital for the past two  
months. Colonel Gaillard was assist-  
ant chief engineer of the Panama  
canal commission.

Navy Is Biggest Since 1864.  
Washington, Dec. 9.—For the first  
time since the Civil war the enlisted  
strength of the navy has passed the  
50,000 mark. The total number of en-  
listed men was 50,136. The gain since  
July 1 was 2,068.

Dead in Texas Reaches 53.  
Bryan, Tex., Dec. 9.—Fifty-three per-  
sons are known to be dead and scores  
of others are reported to have lost  
their lives in the floods of the Brazos  
and Trinity rivers in central and south  
central Texas.

AGRICULTURAL EDUCATION  
IN WESTERN CANADATHE LATEST METHODS ADOPTED  
BY THE AGRICULTURAL  
COLLEGES.

Scientific farming can be pursued  
with more profit and advantage in  
Western Canada, probably than in  
any other portion of the continent.  
What may be achieved by it may be  
ascertained when it is known what  
has been accomplished by the thou-  
sands who have been following the  
occupation for some time and made a  
success of it with not even a theoret-  
ical knowledge. They have tilled  
the land with a hoe and become rich.  
But the question is how long could  
that continue. The soil and the cli-  
mate and every other condition favor  
great results by a technical and practical  
methods as a technical and practical  
knowledge will bring. There is in  
the writer's opinion no possibility of  
failure. Fully aware of this and also  
of the great potentialities that exist  
in Western Canada for farming, as it  
could be developed and carried on in  
Western Canada, the various govern-  
ments have established the machin-  
ery, that there may be developed a  
class of farmers, who in the posses-  
sion of the rich soil of that country,  
with its abundant humus and its pos-  
sibilities with plumes and other prop-  
erties with which it is so largely endow-  
ed, will make of the country, the greatest  
farming portion of the known world.

The Dominion government showed  
its paternalism years ago when it es-  
tablished experimental farms in Mani-  
toba and Saskatchewan. The benefits  
of these in the matter of practical  
education have been widespread, but  
the greatest benefit is to be observed  
in the immediate vicinity of these  
farms, where the occupants have  
brought their holdings into a high  
state of cultivation, and year after  
year sees an added value.

The Province of Manitoba is sup-  
plementing this work by its excellent  
agricultural college, managed by pro-  
fessors of the highest standing in  
their various branches. That this  
work is appreciated is shown by the  
large attendance, not only of the far-  
mer's sons, but by the farmer him-  
self and also by the sons of business  
men and professors who intend fol-  
lowing farming as a profession, and  
that is what it is fast becoming.

The Province of Saskatchewan, al-  
ive to the necessity of a higher and  
a better system of farming, has in  
connection with its university an ag-  
ricultural college and what it is do-  
ing today in the matter of education  
will be felt for all time to come, and  
it will not be long before it will be an  
easy matter to pick out the farms  
manned by graduates of this college,  
or the farms owned by those who  
have gained from the experience  
taught by their neighbor.

The same may be said of Alberta.  
The university at Edmonton has a  
complete agricultural college. Full  
advantage of this is taken by hundreds  
of students anxious to better their ag-  
ricultural knowledge, and fit them to  
take hold successfully of the lands  
they expect to occupy. This  
province has also added demonstra-  
tion farms in various parts, which are  
very successful, inasmuch as farmers  
visit them from all parts, and take ad-  
vantage of educating themselves for  
short periods during each winter.

Dean Curtiss of Ames Agricultural  
College, Iowa, says:

"We of the United States think  
that we know how to get behind agri-  
culture and push, but the Canadians  
dare to do even more than we do in  
some respects. They have wonderful  
faith in the future; they hesitate at no  
undertaking that offers prospects of  
results. More significant still is the  
wide co-operation for agricultural pro-  
motion, including the government,  
private individuals and corporations  
and the railroads."

"Canadians are putting great faith  
in education for the development of  
their resources—not the old education,  
but vocational and technical. Prov-  
inces that have less than half the popu-  
lation of Iowa and much less wealth  
are appropriating more liberally for  
colleges and schools. Manitoba, for  
instance, has in the last two years  
provided about as much money for the  
building of an agricultural plant as  
Iowa has appropriated in half a cen-  
tury. It has given in two years \$2,  
500,000 for buildings and grounds for  
its agricultural institutions."

"Saskatchewan is building a plant  
for its university and agricultural col-  
lege on a broader and more substan-  
tial plan than has been applied to any  
similar institution in this country. Yet  
neither province has more than half a  
million population.

"For public schools equally gener-  
ous provision is made. They are being  
built up to give vocational and  
technical training as well as cultural.  
They fit the needs of the country ex-  
cellently and should turn out fine  
types of boys and girls. They do this  
with a remarkable faith in the value  
of right education.

"Dean Curtiss was much interested  
in the many other ways the Canadian  
government aids agriculture, aside  
from appropriations for educational  
purposes. They are aiding in solving  
marketing problems; they are encour-  
aging better breeding of livestock by  
buying sires and reselling them at  
cost, and they are doing many other  
things of like character.

"I found that the government is ad-  
vancing from 60 to 85 per cent. of  
the money necessary to build co-opera-  
tive creameries and elevators," said  
Dean Curtiss, "and it is doing it at a  
low rate of interest and on long time  
payments. Where cattle need breed-  
ing up, the government buys bulls of  
the best."

Almost a stupid  
man, the colo-  
nel had just a corporal  
said, "I tell you much, if  
you don't drill  
all day, at night,  
bivouac and fire, with  
out looking and with  
the emperor."

"Why a rain, too?"  
asked a yoke-  
fellow.

Coming to the  
heart of knowledge  
of the shoat.

dairy, Shorthorn, or special dairy  
breeds and sends them in at cost price  
and on long time payments."

The yield of grain in Western Can-  
ada in 1913 was excellent but not ab-  
normal, wheat going from 30 to 45  
bushels per acre, and other small grains  
with equally good averages.—Adver-  
tisement.

## HAD HIS PRAYER ANSWERED

Butcher's Only Regret Was That the  
Idea Had Not Been Suggested  
to Him Before.

A butcher whose business had been  
steadily declining, owing chiefly to a  
rival having set up on the opposite  
side of the street, confided to his min-  
ister that he saw nothing for it but  
to close his shop and leave the town.  
The clergyman suggested that per-  
haps he had not made any serious at-  
tempt to retain the trade; but the  
butcher replied that he had done all  
he knew without success.

"But," said the minister, "have you  
tried the effect of prayer?"  
No, he had not thought of trying  
prayer, but he would do so before put-  
ting up the shutters.

A week elapsed, when the minister,  
inquiring to pass the butcher's shop,  
found him radiant with delight.

"Well," the cleric asked, "did you  
try the power of prayer?"

"Oh, yes," was the reply, "and I  
only wish I had tried it before. I  
prayed the very night you left me,  
and on the following morning the best  
gar over the road broke his neck."

## CASE OF MAN'S INGRATITUDE

Woman Certainly Had Poor Reward  
for Her Act of Generous  
Self-Sacrifice.

George B. McClellan, former major  
of New York, was talking about  
Thanksgiving.

"The day," he said, "is a good one  
for a holiday—a good one, for a visit  
to the seashore."

"I was once walking the Board-  
walk in the brilliant sunshine of an  
Atlantic City Thanksgiving day after-  
noon, when I saw an over-dressed  
couple come forth from a cafe."

"They were quarrelling. Their voices  
grew louder and fiercer. Finally the  
man gave the woman a push that ac-  
tually knocked her down."

"As she struggled to her feet the  
woman shook her fist at the man, and  
shrieked:

"And this is what I get, is it, for  
pawing the fly screens to give you a  
day off!"

He Was Real Nasty.  
A dorky employed as an office boy  
came to work one morning with a  
face that looked as though it had  
been run through a meat-grinder.

"Henry," demanded his surprised  
employer, "what in the world hap-  
pened to you?"

"Well, sub, boss," explained  
"I got into a little argument  
with another nigger, and one  
to another, well, I up and bit  
him. Well, sub, it seemed lak de  
him. He took and bla-  
ma my eyes and bit both of  
my mighty high off, and split  
den he throwed me down  
in de stomach. Hoy,  
nover did I get so sick of  
mah life!"

## ADVANCING UNDER PROTECTION OF CANNON FIRE

Some of General Villa's men are here seen advancing under the protection of cannon fire to engage the federales in hand-to-hand fighting.

## GEN. VILLA'S CENTER ON MEXICAN CENTRAL RAILROAD

This is a photograph of Villa's center on the line of the Mexican Central during the fighting around Juarez. The battle extended five miles each way from this point. The train was in readiness to carry the wounded to the rear.

## VILLA DIRECTING THE OPENING SHOT OF THE BATTLE

Here "La" Villa is seen directing the firing of the shot that opened a general engagement. He had 18 cannons at point and the artillery duel, beginning at 4 o'clock, continued until after dark.

## ARTILLERY OF THE CONSTITUTIONALISTS IN ACTION

The artillery of the constitutional army was well served in the fighting that resulted in the repulse of the federales from the city of Juarez.

## FEDERAL OFFICER SHOT DOWN

The usual portion of the federal officers captured by the rebels. One of them is here seen being shot down. He did not escape the rebels.

## REBEL SHARPSHOOTERS NEAR PAM

These are some of the sharpshooters used so effectively by General Aguirre in the important oil district of Tuxpam.

## ON THE FIRING LINE AT S

Federales attempting a flank movement to the right, off by this line of fighters extending along the brow of the hill.

The Boy and the Ant.  
"Lawrence S. McClary, would-be newspaper man," he said bitterly (yes, he was talking to himself), "you take off your hat to that ant, and then get up and follow her example! She's a better man than you are any day in the week! The scrap who wanted was under a mountain of debris; nobody knew whether it was actually there or not. But did she let any one come along and rage at her and say, 'Impossible! It's not there! you can't do it! It can't be done!'"

She went on the that it couldn't be done. And she hustled along when you and she'll keep right. From "Larry Goe no Ravenscroft."

## SCOUT TRAIN OF CARRANZA'S FORCES

This is one of the scout trains which have proved so useful to the constitutional armies. On every car are mounted machine guns.

## OPERATING THE MACHINE GUNS

By the effective work of the machine guns a flank movement of Huerta's cavalry was repulsed. One of the guns is here shown in action.

## MOVING ON THE CITY OF JUAREZ

This shows a part of the rebel army advancing rapidly on the constitutionalists captured and held.

## RURAL NEWS ITEMS

## LAKE VILLA

Mrs. Etta Winecke of Sycamore, Ill., spent several days here recently.

Mr. and Mrs. Wm. Marselis are entertaining their son and wife of North Berd, Neb.

Roy Dawson has returned from Columbus Junction, Iowa, where he has been visiting friends.

Word reached here Saturday evening of the death of Mrs. Wm. Thom Sr., of Libertyville. Mrs. Thom made her home here for many years but later went to Libertyville.

## The Grocer Merits Your Coffee Trade

When coffees are judged solely upon quality in the cup, the grocer gives you the best value possible to procure.

The grocer is the most convenient and the least expensive distributor of roasted coffee; therefore, he is the most logical distributor of coffee, and the one most deserving of your patronage.

## Mex-O-Ja Coffee

is a blend of our selection of genuine Sao Paulo and Mexican varieties—a coffee unmatchable at the price.

Every package contains a full pound, net weight—and it comes to you in a sanitary protector carton, with brand green and red stripes.

The Price May Change—the Quality Never. Price subject to revision according to the cost of raw material.
